On page 2389, the fifth sentence of the first full paragraph contains an error. The sentence should read as follows: "Acyl fragment analysis showed that 34:2 species in *npr1* and *ssi2 npr1* represented mainly a combination of 18:2 and 16:0, whereas 34:3 species were mainly a 16:0-18:3 combination, but lower amounts of 16:1-18:2 and 16:3-18:0 combinations were detected."
