Hyung-Taeg Cho and Daniel J. Cosgrove. (2002). Regulation of Root Hair Initiation and Expansin Gene Expression in Arabidopsis. *Plant Cell* **14**, 3237-3253.

A typographical error was printed on page 3249. The sentence should read, “The *axr2* plant can be less sensitive to ACC if AXR2/IAA7 represses expression of the components of ethylene signaling or if the gain-of-function mutant protein finds new targets, such as genes required for the root hair initiation machinery, as a result of its acquired durability and increased concentration in the nucleus.”
