ON THE COVER

Serine/arginine-rich (SR) proteins constitute a class of splicing regulators in plants and animals. Tillemans et al. (pages 3218–3234) investigated the nuclear localization of different domain-deleted mutant proteins of the *Arabidopsis* SR splicing factor RSZp22, a homolog of the human 9G8 splicing factor. The authors show that nucleolar localization of RSZp22 involves different domains or motifs, and the mobility of SR proteins between different nuclear territories depends on the cellular phosphorylation state. The results further suggest that RSZp22 is a nucleocytoplasmic shuttling protein. This work emphasizes the high mobility of *Arabidopsis* SR splicing factors and provides insights into the dynamic relationships between the different nuclear compartments. The cover shows Z-series confocal images of a nucleus expressing RSZp22-GFP following treatment with leptomycin B, demonstrating the concentration of the fusion protein in intranuclear domains after inhibition of the CRM1/exportin1 nuclear export pathway (the concentration of RSZp22-GFP is depicted with various pseudocolor images).

COMMENTARY

- Plant Biology Research Comes of Age in China** 2855
Haodong Chen, Valerie J. Karplus, Hong Ma, and Xing Wang Deng

IN THIS ISSUE

- Genomic Hopscotch: Gene Transfer from Plastid to Nucleus** 2865
Nancy A. Eckardt

IN BRIEF

- Facets of Histone Acetylation Required for Light-Responsive Gene Expression** 2868

The Plant Cell (ISSN 1040-4651, online ISSN 1531-298X) is published monthly (one volume per year) by the American Society of Plant Biologists, 15501 Monona Drive, Rockville, MD 20855-2768, and is produced by Dartmouth Journal Services, Orford, NH. The institutional price for the print and online versions is based on type of institution; contact institution@aspb.org. A subscription includes both *The Plant Cell* and *Plant Physiology*; single copies may be purchased for \$75 each, plus \$7 shipping (U.S.) or \$9 (outside U.S.). Members of the American Society of Plant Biologists may subscribe to *The Plant Cell* for \$160. Nonmember individuals may subscribe for \$325. For matters regarding subscriptions, contact Suzanne Cholwek, ASPB, 15501 Monona Drive, Rockville, MD 20855-2768; telephone 301/251-0560, ext. 141; fax 301/251-6740; e-mail scholwek@aspb.org. Notify ASPB in writing within 3 months (domestic) or 6 months (foreign) of issue date, and defective copies or copies lost in the mail will be replaced. Send all inquiries regarding display advertising to Brett Goldfine, Leonard Media Group, PO Box 220, 415 Horsham Road, Horsham, PA 19044; telephone 215/675-9133, ext. 226; fax 215/675-9376; e-mail brett@leonardmedia.com. Periodicals postage paid at Rockville, MD, and at additional mailing offices.

Postmaster: Send address changes to *The Plant Cell*, American Society of Plant Biologists, 15501 Monona Drive, Rockville, MD 20855-2768. The online version of *The Plant Cell* is available at www.plantcell.org.

Permission to Reprint: Permission to make digital or hard copies of part or all of a work published in *The Plant Cell* is granted without fee for personal or classroom use provided that copies are not made or distributed for profit or commercial advantage and that copies bear the full citation and the following notice on the first page: "Copyright American Society of Plant Biologists." For all other kinds of copying, request permission in writing from Nancy A. Winchester, Publications Director, ASPB headquarters.
