Volume 18 Number 6 June 2006

The electronic form of this issue, available on or before June 1, 2006, at www.plantcell.org, is considered the journal of record.

ON THE COVER

The transition from a vegetative to a floral meristem is a complex process involving a host of transcription factors and interacting partners that engage in an intricate balancing act between activation and repression of downstream genes influencing meristem and organ identity. The MADS box genes *AGAMOUS-LIKE 24* (*AGL24*) and *SHORT VEGETATIVE PHASE* (*SVP*) are known to function as a promoter and a repressor, respectively, of floral meristem identity in *Arabidopsis*. Gregis et al. (pages 1373–1382) show that *AGL24* and *SVP* function in the floral meristem via their interaction with the MADS domain protein *APETALA1* (*AP1*). Their work shows that dimers composed of *AP1-AGL24* and *AP1-SVP* interact with the *LEUNIG-SEUSS* repressor complex, and this influences the regulation of the C-class gene *AGAMOUS* during the early stages of flower development.

IN THIS ISSUE

- Function of γ -Tubulin in Plants** 1327
Nancy A. Eckardt

IN BRIEF

- SCARFACE GTPase Activating Protein Links Auxin Transport and Vesicle Trafficking** 1330
- PASTICCINO2 Antiphosphatase: Balancing Cell Division and Differentiation**
Nancy A. Eckardt

CURRENT PERSPECTIVE ESSAY

- Meristems in the Movies: Live Imaging as a Tool for Decoding Intercellular Signaling in Shoot Apical Meristems** 1331
Frans E. Tax and Amanda Durbak

RESEARCH ARTICLES

- Sequence-Level Analysis of the Diploidization Process in the Triplicated *FLOWERING LOCUS C* Region of *Brassica rapa*** 1339
[W](#) [O](#)
Tae-Jin Yang, Jung Sun Kim, Soo-Jin Kwon, Ki-Byung Lim, Beom-Soon Choi, Jin-A Kim, Mina Jin, Jee Young Park, Myung-Ho Lim, Ho-Il Kim, Yong Pyo Lim, Jason Jongho Kang, Jin-Han Hong, Chang-Bae Kim, Jong Bhak, Ian Bancroft, and Beom-Seok Park
- Comparative Genomics of *Brassica oleracea* and *Arabidopsis thaliana* Reveal Gene Loss, Fragmentation, and Dispersal after Polyploidy** 1348
[W](#) [O](#)
Christopher D. Town, Foo Cheung, Rama Maiti, Jonathan Crabtree, Brian J. Haas, Jennifer R. Wortman, Erin E. Hine, Ryan Althoff, Tamara S. Arbogast, Luke J. Tallon, Marielle Vigouroux, Martin Trick, and Ian Bancroft
- Maintenance of DNA Methylation during the *Arabidopsis* Life Cycle Is Essential for Parental Imprinting** 1360
[W](#)
Pauline E. Jullien, Tetsu Kinoshita, Nir Ohad, and Frédéric Berger
- AGL24*, *SHORT VEGETATIVE PHASE*, and *APETALA1* Redundantly Control *AGAMOUS* during Early Stages of Flower Development in *Arabidopsis*** 1373
[W](#)
Veronica Gregis, Alice Sessa, Lucia Colombo, and Martin M. Kater
- GLABROUS INFLORESCENCE STEMS Modulates the Regulation by Gibberellins of Epidermal Differentiation and Shoot Maturation in *Arabidopsis*** 1383
[W](#)
Yinbo Gan, Rod Kumimoto, Chang Liu, Oliver Ratcliffe, Hao Yu, and Pierre Broun
- SCARFACE* Encodes an ARF-GAP That Is Required for Normal Auxin Efflux and Vein Patterning in *Arabidopsis*** 1396
[W](#)
Leslie E. Sieburth, Gloria K. Muday, Edward J. King, Geoff Benton, Sun Kim, Kasee E. Metcalf, Lindsay Meyers, Emylie Seamen, and Jaimie M. Van Norman

^{OA} Open Access articles can be viewed online without a subscription.

The Plant Cell (ISSN 1040-4651, online ISSN 1531-298X) is published monthly (one volume per year) by the American Society of Plant Biologists, 15501 Monona Drive, Rockville, MD 20855-2768, and is produced by Dartmouth Journal Services, Orford, NH. The institutional price for the print and online versions is based on type of institution; contact institution@aspb.org. A subscription includes both *The Plant Cell* and *Plant Physiology*; single copies may be purchased for \$75 each, plus \$7 shipping (U.S.) or \$9 (outside U.S.). Members of the American Society of Plant Biologists may subscribe to *The Plant Cell* for \$160. Nonmember individuals may subscribe for \$325. For matters regarding subscriptions, contact Suzanne Cholwek, ASPB, 15501 Monona Drive, Rockville, MD 20855-2768; telephone 301/251-0560, ext. 141; fax 301/251-6740; e-mail scholwek@aspb.org. Notify ASPB in writing within 3 months (domestic) or 6 months (foreign) of issue date, and defective copies or copies lost in the mail will be replaced. Send all inquiries regarding display advertising to Kelly Taylor, Leonard Media Group, PO Box 220, 415 Horsham Road, Horsham, PA 19044; telephone 215/675-9133, ext. 226; fax 215/675-9376; e-mail kelly@leonardmedia.com. Periodicals postage paid at Rockville, MD, and at additional mailing offices. **Postmaster:** Send address changes to *The Plant Cell*, American Society of Plant Biologists, 15501 Monona Drive, Rockville, MD 20855-2768. The online version of *The Plant Cell* is available at www.plantcell.org.

Permission to Reprint: Permission to make digital or hard copies of part or all of a work published in *The Plant Cell* is granted without fee for personal or classroom use provided that copies are not made or distributed for profit or commercial advantage and that copies bear the full citation and the following notice on the first page: "Copyright American Society of Plant Biologists." For all other kinds of copying, request permission in writing from Nancy A. Winchester, Publications Director, ASPB headquarters.
