

Correction

Virginia Lambrix, Michael Reichelt, Thomas Mitchell-Olds, Daniel J. Kliebenstein, and Jonathan Gershenzon. (2001). The Arabidopsis Epithiospecifier Protein Promotes the Hydrolysis of Glucosinolates to Nitriles and Influences *Trichoplusia ni* Herbivory. *Plant Cell* **13**, 2793–2807.

An incorrect figure legend was published for Figure 3. The legend reads, “The solid lines represent the lod scores for the amount of nitriles formed as a percentage of the total glucosinolate hydrolysis products; the dashed line represents the lod scores for the percentage of rosette leaf area damaged by *T. ni*.” The correct legend should read, “The dashed lines represent the lod scores for the amount of nitriles formed as a percentage of the total glucosinolate hydrolysis products; the solid line represents the lod scores for the percentage of rosette leaf area damaged by *T. ni*.”
