Volume 24 Number 4 April 2012

The electronic form of this issue, available at www.plantcell.org, is the journal of record.

ON THE COVER

Stromules are tentacle-like protrusions of plastids that have been hypothesized to connect individual plastids and shuttle molecules between them. Schattat et al. (pages 1465–1477) re-examine this hypothesis using a photoconvertible fluorescent protein, which enabled differential coloring of the plastids in a cell, and directly monitoring the putative transfer of fluorescent proteins between plastids. Using this technique, the authors show that stromules extended by independent plastids do not fuse or allow exchange of fluorescent proteins between plastids. The cover image shows the differential coloring of plastids and their stromules in leaf epidermal cells. Chlorophyll autofluorescence is rendered in blue.

IN BRIEF

- Plastids Do Not Form Interconnected Networks** 1303
Kathleen L. Farquharson
- Augmin's Role in Microtubule Generation in Plants** 1304
Nancy R. Hofmann
- Oxylipins and Plant Palatability** 1305
Gregory Berton

COMMENTARY

- The Gatsby Plant Science Summer School: Inspiring the Next Generation of Plant Science Researchers** 1306 [OA](#)
Aurora Levesley, Juliet Jopson, and Celia Knight

PERSPECTIVE

- Secretary Pathway Research: The More Experimental Systems the Better** 1316
Jurgen Denecke, Fernando Aniento, Lorenzo Frigerio, Chris Hawes, Inhwan Hwang, Jaideep Mathur, Jean-Marc Neuhaus, and David G. Robinson

REVIEW

- Mitogen-Activated Protein Kinase Signaling in Plant-Interacting Fungi: Distinct Messages from Conserved Messengers** 1327 [W](#)
Louis-Philippe Hamel, Marie-Claude Nicole, Sébastien Duplessis, and Brian E. Ellis

LARGE-SCALE BIOLOGY ARTICLES

- CellSeT: Novel Software to Extract and Analyze Structured Networks of Plant Cells from Confocal Images** 1353 [W](#)
Michael P. Pound, Andrew P. French, Darren M. Wells, Malcolm J. Bennett, and Tony P. Pridmore

The Plant Cell (ISSN 1040-4651, online ISSN 1532-298X) is published monthly (one volume per year) by the American Society of Plant Biologists, 15501 Monona Drive, Rockville, MD 20855-2768, and is produced by Dartmouth Journal Services, Waterbury, VT. The institutional price for the print and online versions is based on type of institution; contact institution@aspb.org. A subscription includes both *The Plant Cell* and *Plant Physiology*; single copies may be purchased for \$95 each, plus \$10 shipping (U.S.) or \$12 (outside U.S.). Members of the American Society of Plant Biologists may subscribe to *The Plant Cell* for \$240. Nonmember individuals may subscribe for \$375. For matters regarding subscriptions, contact Suzanne Cholwek, ASPB, 15501 Monona Drive, Rockville, MD 20855-2768; telephone 301/296-0926; fax 301/251-6740; e-mail scholwek@aspb.org. Notify ASPB in writing within 3 months (domestic) or 6 months (foreign) of issue date, and defective copies or copies lost in the mail will be replaced. Send all inquiries regarding display advertising to FASEB AdNet, 9650 Rockville Pike, Bethesda, MD 20814-3998; telephone 301/634-7791; fax 301/634-7153; e-mail adnet@faseb.org. Periodicals postage paid at Rockville, MD 20850, and at additional mailing offices.

Postmaster: Send address changes to *The Plant Cell*, American Society of Plant Biologists, 15501 Monona Drive, Rockville, MD 20855-2768. The online version of *The Plant Cell* is available at www.plantcell.org.

Permission to Reprint: Permission to make digital or hard copies of part or all of a work published in *The Plant Cell* is granted without fee for personal or classroom use provided that copies are not made or distributed for profit or commercial advantage and that copies bear the full citation and the following notice on the first page: "Copyright American Society of Plant Biologists." For all other kinds of copying, request permission in writing from Nancy A. Winchester, Publications Director, ASPB headquarters.
