Volume 26 Number 1 January 2014

The electronic form of this issue, available at www.plantcell.org, is the journal of record.

ON THE COVER

The ability to precisely modify DNA in cells offers great opportunities for basic and applied research, yet it remains difficult to achieve for most plant species. Baltes et al. (pages 151–163) demonstrate the feasibility of using geminivirus replicons for genome engineering in *Arabidopsis* and tobacco. They engineer geminivirus vectors to repair a nonfunctional *gus:nptII* reporter gene and demonstrate the production of leaf cells, calli, and plantlets with precise DNA sequence changes. The cover is a composite image of tobacco leaf tissue showing individual cells that have undergone gene targeting with geminivirus vectors to restore GUS activity (blue specks; background image) and a shoot that was regenerated from transformed leaf cells (foreground).

IN BRIEF

- The Plant Cell* Reviews Aspects of Photobiology: It's a Matter of Stop 'n Go** 1
Nancy A. Eckardt
- Geminivirus Vectors Deliver Reagents for Plant Genome Engineering** 2
Jennifer Mach
- En Garde! Inhibition of an Actin Depolymerizing Factor Activates Immune Responses during Plant–Microbe Interactions** 3
Kathleen L. Farquharson
- Getting in Shape? Leaves Work It Out with KANADI1** 4
Jennifer Mach

REVIEWS

- Mathematical Models Light Up Plant Signaling** 5
Yin Hoon Chew, Robert W. Smith, Harriet J. Jones, Daniel D. Seaton, Ramon Grima, and Karen J. Halliday
- The UV-B Photoreceptor UVR8: From Structure to Physiology** 21
Gareth I. Jenkins
- Phototropism: Growing towards an Understanding of Plant Movement** [OPEN](#) 38
Emmanuel Liscum, Scott K. Askinosie, Daniel L. Leuchtman, Johanna Morrow, Kyle T. Willenburg, and Diana Roberts Coats
- PIFs: Systems Integrators in Plant Development** [W](#) 56
Pablo Leivar and Elena Monte
- Multiple Layers of Posttranslational Regulation Refine Circadian Clock Activity in *Arabidopsis*** 79
Pil Joon Seo and Paloma Mas

LARGE-SCALE BIOLOGY ARTICLES

The Plant Cell (ISSN 1040-4651, online ISSN 1532-298X) is published monthly (one volume per year) by the American Society of Plant Biologists, 15501 Monona Drive, Rockville, MD 20855-2768, and is produced by Dartmouth Journal Services, Waterbury, VT. The institutional price for the print and online versions is based on type of institution; contact institution@aspb.org. Single copies may be purchased for \$40 each, plus \$10 shipping (U.S.) or \$12 (outside U.S.). Members of the American Society of Plant Biologists may subscribe to *The Plant Cell* for \$240. Nonmember individuals may subscribe for \$500. Students may subscribe for \$165. For matters regarding subscriptions, contact Suzanne Cholwek, ASPB, 15501 Monona Drive, Rockville, MD 20855-2768; telephone 301/296-0926; fax 301/251-6740; e-mail scholwek@aspb.org. Notify ASPB in writing within 3 months (domestic) or 6 months (foreign) of issue date, and defective copies or copies lost in the mail will be replaced. Send all inquiries regarding display advertising to FASEB AdNet, 9650 Rockville Pike, Bethesda, MD 20814-3998; telephone 301/634-7791; fax 301/634-7153; e-mail adnet@faseb.org. Periodicals postage paid at Rockville, MD 20850, and at additional mailing offices.

Postmaster: Send address changes to *The Plant Cell*, American Society of Plant Biologists, 15501 Monona Drive, Rockville, MD 20855-2768. The online version of *The Plant Cell* is available at www.plantcell.org.

Permission to Reprint: Permission to make digital or hard copies of part or all of a work published in *The Plant Cell* is granted without fee for personal or classroom use provided that copies are not made or distributed for profit or commercial advantage and that copies bear the full citation and the following notice on the first page: "Copyright American Society of Plant Biologists." For all other kinds of copying, request permission in writing from Nancy A. Winchester, Publications Director, ASPB headquarters.
